Single Deck System

Professional Deck System For Removals

The SS150 series will fit in most minivans, cargo vans, and full-size SUVs. Engineered specifically to meet the needs of the mortuary industry, the deck allows one person to load, unload, and transport.

The sealed fiberglass and aluminum deck system prevents interior damage to the vehicle and acts as a washable tray for easy sanitation. Recessed cot cups and adjustable bier pins come standard to allow cots and caskets to be safely secured. Each deck includes a ramp that folds over the bumper, protecting the vehicle from damage while loading and unloading. When the rear door is closed, the ramp hinges and stores vertically.

The deck's attractive styling and quality construction enhances both the long-term value of your vehicle and the vehicle's use. These distinct features make the SS150 series one of the most reliable and durable deck systems in the industry.

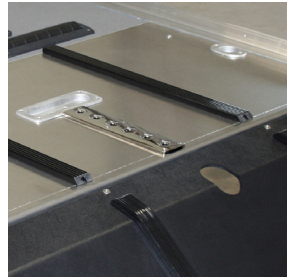

TRANSPORTING CAPABILITIES

The SS150 and XL can safely transport two standard cremation containers, two cots, one air tray, or one casket.

OVERSIZE XLC DECK OPTION

The SS150XLC is an all-aluminum deck which fits a standard and oversized cot side-by-side.

WASHABLE FIBERGLASS DECK

Each deck is made of extruded aluminum and sealed fiberglass, both protecting the vehicle's floor and allowing for sanitation if necessary.

NYLON CASNET ROLLERS

The SS150XL includes four casket rollers to make moving caskets and air trays in and out of a vehicle easier.

HIGH-IMPACT BUMPER RAMP

A ramp at the rear of the deck hinges down to protect your vehicle's bumper. The ramp stores vertically when the rear door is closed.

RECESSED ALUMINUM COT CUPS

Solid cast aluminum cot cups help prevent stretchers from shifting during transport.

SPECIFICATIONS

	STANDARD LENGTH	EXTENDED LENGTH	XLC OVERSIZE
WIDTH	48 INCHES	48 INCHES	52.5 INCHES
LENGTH	90.75 INCHES	96 INCHES	97.75 INCHES
MAXIMUM LOAD WIDTH*	47.25 INCHES	47.25 INCHES	51.9 INCHES
MAXIMUM LOAD LENGTH*	87.5 INCHES	92.5 INCHES	95.1 INCHES
INSTALL	TIE-DOWNS	TIE-DOWNS	FLOOR MOUNTS
WEIGHT	145 LBS	135 LBS	215 LBS

* Note: The weight listed includes the ramp, but does not include the rollers
